Subject: Ward 2 redistricting

I recently reviewed the redistricting proposal by the "Citizens For Fair Redistricting Committee" and would like to offer my perspective that ward boundaries are an important part of the fabric of the city.

I identify myself as a citizen of Minneapolis, living in the Seward neighborhood and address my concerns and communicate my preferences to the city council member, Cam Gordon, that represents my neighborhood located in Ward 2. Rather than representing any one faction the members of the city council are elected in the neighborhoods representing their wards to be the voices of those neighborhoods, from private individuals to business interests, from persons with lower incomes to the very wealthy and certainly across all lines of race and origin.

Thank you for your consideration, Ewart Martens
