Background/Analysis:

In 2010, the Legislature established the Council on Local Results and Innovation as a guiding body to act upon legislation with the purpose of encouraging and financially incenting cities and counties throughout Minnesota to use performance measures in the management of their work and reporting to residents. As a first step, in February 2011, the Council released a standard set of ten performance measures for counties and ten performance measures for cities that if used and shared with the public will aid residents, taxpayers, and state and local elected officials in determining the efficacy of counties and cities in providing services, and measure residents' opinions of those services.

Counties and cities that choose to participate in the standard measures program must officially adopt ten of the performance benchmarks developed by the Council, and implement them annually. **The City of Minneapolis fulfilled this commitment in 2011, 2012, 2013, 2014 and 2015.**
