Re: Expansion of Contract C-19558

The Minneapolis Water Works has an existing Contract (C-19558) with Mountain Environmental, Inc. The contractor hauls treatment residuals from the Lagoons. The operation has experienced an additional amount of residuals for the last quarter of 2004. This is due to the fact that additional hauling was needed from the open reservoir. We have a window of opportunity to drain and clean residuals from the open reservoir from December 2004 to March of 2005. We would like to increase the Contract amount by \$150,000.00.

I appreciate your assistance in this matter.
