

**RESOLUTION
OF THE
CITY OF MINNEAPOLIS**

By _____

Rescinding Resolution 2004R-473 entitled "Establishing Sewer Service Availability and Connection Charges to pay Reserve Capacity Costs in accordance with Metropolitan Council Environmental Service Division policy and pricing" Passed October 22, 2004.

Resolved by The City Council of The City of Minneapolis:

That the above-entitled resolution be and is hereby rescinded.

**RESOLUTION
OF THE
CITY OF MINNEAPOLIS**

By _____

Establishing Sewer Service Availability and Connection Charges to pay Reserve Capacity Costs in accordance with Metropolitan Council Environmental Service Division policy and pricing.

Whereas, the Metropolitan Council Environmental Services Division has determined to reserve unused capacity in the metropolitan disposal system each year commencing in 1973 for local government units in which new buildings to be connected to the system or increased volume connections to the system are commenced during such year; and to allocate the debt service costs of such unused capacity for the year among such local government units; and

Whereas, in order for the City to pay such costs allocated to it each year, it is necessary to establish sewer service availability and connection charges for all buildings and uses;

Now, Therefore Be It Resolved by the City Council of the City of Minneapolis:

That for the purpose of paying costs of reserve capacity allocated to the City each year by the Metropolitan Council Environmental Services Division, the Council hereby adopts by reference the Metropolitan Council Environmental Services Division pricing for sewer availability charges (SAC). The charge for each building or structure shall be equal to the number of units of sewage volume which it will discharge, and shall be subject to the conditions and rates set by the Metropolitan Council Environmental Services Division.

Be It Further Resolved that this charge shall be collected prior to the issuance of a business license, a building permit or water and/ or sewer connection permits.

Be It Further Resolved that the Regulatory Services Department shall be responsible for the administration of the program and shall prepare or revise building permit or sewage connection permit application forms to provide information necessary for the computation of the number of units assignable to the building, structure, or use in question, and shall collect the applicable charge before issuance of a permit. The Regulatory Services Department is required to make such information available to the Metropolitan Council Environmental Services Division. If upon filing a report covering such permit with the Metropolitan Council Environmental Services Division, the Commission determines that a greater number of units is assignable to the building, structure, or use in question, any additional amount of cost allocated to the City as a result shall be paid by the person or company to whom the permit or license was granted.

Be It Further Resolved that the Regulatory Services Department is further directed to place receipts of this charge in the Sewer Rental Fund and to bill all collection and administrative costs they incur for this resolution to the Sewer Rental Fund on a periodic basis.

Be It Further Resolved that all provisions are effective upon passage of this resolution.
