

Minneapolis Sustainability Indicators and Numerical Targets Revisions

	Indicator	CURRENT TARGETS	PROPOSED NEW TARGETS
A Healthy Life 6	Healthy Infants	Reduce infant mortality rates overall and within each racial/ethnic subgroup to 4.5 deaths per 1,000 live births by 2010. ** Reduce the proportion of infants born at low birth weight to 5 percent by 2010. **	No changes.
	Teen Pregnancy	Reduce the pregnancy rate among 15- to 17-year-olds to 46 pregnancies per 1,000 by 2010. **	No changes.
	HIV and Gonorrhea	Reduce the rate of new HIV cases in Minneapolis to 21 cases per 100,000 people by 2010. ** Reduce the rate of new gonorrhea cases in Minneapolis to 161 cases per 100,000 people by 2010. **	No changes.
	Healthy Weight	Increase the proportion of Minneapolis adults who are at a healthy weight to 52 percent by 2010.	No changes.
	Asthma	Reduce asthma-related hospitalizations by 2010: ** 0 to 4 years old – reduce to 51 per 10,000 people 5 to 64 years old – reduce to 14 per 10,000 people 65 and older – reduce to 24 per 10,000 people	No changes.
	Lead Poisoning	Test all 1- and 2-year-old children for lead by 2010. ** Inspect all homes of children with elevated blood-lead levels (10 micrograms of lead per deciliter of blood) by 2010. **	<ul style="list-style-type: none"> Test all 1- and 2-year-old children for lead by 2014. ** <u>Maintain</u> inspections of all homes of children with elevated blood-lead levels (10 micrograms of lead per deciliter of blood) <u>through 2014</u>. ** *
Greenprint 12	Climate Change	Reduce carbon dioxide emissions from City operations by 12 percent by 2012 and by 20 percent by 2020. Reduce citywide carbon dioxide emissions by 12 percent by 2012 and by 20 percent by 2020.	<ul style="list-style-type: none"> <u>Reduce municipal operations carbon dioxide emissions by 1.5 percent annually.</u> <u>Reduce citywide carbon dioxide emissions by 17 percent by 2020 using 2006 as a baseline.</u>
	Renewable Energy	In City operations, by 2008 increase use of electricity from renewable sources to 10 percent above the renewable electricity supply provided by Xcel Energy. Citywide, by 2015 increase renewable energy use to 10 percent above state and federal mandates.	<ul style="list-style-type: none"> <u>In municipal operations increase renewable electricity to one megawatt by 2014.</u> <u>Citywide, increase renewable energy use to 10 percent above Xcel Energy's actual renewable power mix by 2014.</u>
	Air Quality	Reduce "moderately unhealthy" days in Minneapolis to fewer than 35 per year by 2015, compared to 191 in 2005. Reduce all monitored air toxins to levels within state health guidelines by 2015.	<ul style="list-style-type: none"> <u>Reduce criteria air pollution levels in the Minneapolis area to health-based levels recommended by the Environmental Protection Agency Clean Air Scientific Advisory Committee.</u> <u>Reduce all monitored air toxins to levels within state health guidelines by 2015.</u>
Greenp	Tree Canopy	No net loss to the citywide tree canopy cover by 2015, compared to 26 percent in 2004. Plant at least 2,500 trees on public land annually through 2015.	<ul style="list-style-type: none"> <u>Maintain the city's 26 percent tree canopy level through 2015 and increase the urban tree canopy to 30 percent by 2030.</u> <u>Plant at least 4,000 trees on public land in 2010 and gradually increase to 6,000 trees annually by 2015.</u>

Indicator	CURRENT TARGETS	PROPOSED NEW TARGETS
Biking	Add 14 miles of on-street bicycle lanes and 30 miles of off-street trails to the 2004 level for a total of 150 miles of bikeways in the city by 2015.	<ul style="list-style-type: none"> • <u>Increase on-street lanes and off-street trails by a combined 55 miles from 2008 levels by 2015.</u> • <u>Reach a bicycling mode share of 6 percent by 2014, with a milestone of 5 percent by 2011.</u> • <u>Increase the number of cyclists measured in bike counts (at the same locations at which bike counts have been taken) by 60 percent over the 2008 baseline by 2014, with a milestone of 30 percent by 2011.</u>
Downtown Transportation Alternatives	Increase the percentage of people who enter downtown via alternative transportation (bus, light rail, bicycle, walking, carpool) from 55 percent in 2003 to 67 percent by 2013.	No changes.
Airport Noise	By 2009, reduce the average noise levels by at least three decibels, the minimum change that is perceptible to the average person's ear, from 2004 levels at all nine monitored locations in Minneapolis.	No changes.
Stormwater	Eliminate combined sewer overflows by 2014.	<ul style="list-style-type: none"> • <u>Reduce pollutants in stormwater runoff, establish measurements of amounts being reduced, and determine the city's allocations of the reductions needed to bring impaired water bodies into compliance, all by 2015.</u> • <u>Increase the number of rain gardens to 3,000 and identify their land use (residential, commercial and industrial, or institutional and public) by 2015.</u> • <u>Maintain no combined sewer overflows.</u>
Healthy Lakes	<p>Water quality is measured using the Trophic State Index (TSI). The TSI measures water quality based on clarity, phosphorus level and the amount of algae. A lower TSI means clearer water.</p> <p>By 2014, keep Trophic State Index (TSI) levels at or below: Brownie Lake 55 TSI Lake Harriet 47 TSI Lake Calhoun 47 TSI Lake of the Isles 57 TSI Cedar Lake 47 TSI</p>	<ul style="list-style-type: none"> • <u>Every Minneapolis lake is rated and receives a ranking of 8,9,10 (with 10 being excellent) on the LAURI Index¹ by 2014.</u> • <u>Achieve zero beach closings.</u> <p>¹The LAURI index measures water clarity, aesthetic considerations such as color or odor, aquatic plant density that may interfere with recreational uses, habitat quality, and public health status at swimming beaches.</p>
Green Jobs		Target(s) to be developed.
Local Food		Target(s) to be developed. City Council adopted Local Foods Indicator in June 2009.
Waste Reduction and Recycling NEW		<ul style="list-style-type: none"> • <u>Expand the Source-Separated Organics recycling program citywide by 2013.</u> • <u>Increase the percentage of Minneapolis residents using small garbage carts from 4 percent in 2008 to 25 percent in 2013.</u> • <u>Reduce the number of households having more than one garbage cart by 50 percent by 2013 (from 22 percent in 2008).</u> • <u>Increase waste diversion to 50 percent and composting to 10 percent by 2013 (from 33 percent in 2008).</u>

	Indicator	CURRENT TARGETS	PROPOSED NEW TARGETS
A Vital Community 8	Brownfield Sites	Clean up 100 sites from 2004 to 2014.	No changes.
	Part I Violent Crimes	No more than 11 homicides per 100,000 residents regardless of population change.	<ul style="list-style-type: none"> • <u>Reduce Part 1 Violent Crimes by 10% by 2014 (2008 baseline).</u> • Maintain no more than 11 homicides per 100,000 residents regardless of population change.
	Community Engagement		Target(s) to be developed.
	Homelessness	End homelessness by 2016.	No changes.
	Affordable Housing	<p>By 2009¹:</p> <p>New construction of 960 rental housing units affordable to families with incomes up to 50 percent of median family income (MFI).</p> <p>New construction of 250 rental housing units affordable to families with incomes up to 80 percent of MFI.</p> <p>Renovation of 1,340 rental housing units affordable to families with incomes up to 50 percent of MFI.</p> <p>Renovation of 350 rental housing units affordable to families with incomes up to 80 percent of MFI.</p> <p>New construction of 260 ownership housing units affordable to families with incomes up to 80 percent of MFI.</p> <p>Renovation of 90 ownership housing units affordable to families with incomes up to 80 percent of MFI.</p> <p>¹Condensed target, from the 2005 to 2009 Consolidated Plan.</p>	No changes.
	Workers Earning a Livable Wage		Target(s) to be developed.
	Graduation Rate	Increase the average high school graduation rate to 80 percent by 2008 for students at the seven largest public high schools: Edison, Henry, North, Roosevelt, South, Southwest and Washburn. **	<ul style="list-style-type: none"> • Increase the average high school graduation rate to 80 percent by 2012 for students at the seven largest public high schools: Edison, Henry, North, Roosevelt, South, Southwest and Washburn. **
	Arts and the Economy		Target(s) to be developed.

**Per City Council Resolution: Break out information by race and geography if available.
