

GRAND AVE BRIDGE RECONSTRUCTION

Grand Avenue bridge over the Midtown Greenway

Project Overview

The Grand Avenue bridge was built in 1914 over what is now the Midtown Greenway. It was originally built to separate the street from railroad traffic. Today it is still an important connection within the Whittier neighborhood of south Minneapolis. Due to its age, the City needs to reconstruct the bridge to maintain its use. As part of the project, the City will connect with area residents and stakeholders. This outreach will help inform the project and communicate impacts.

Project Goals

- Reconstruct the bridge to maintain safe and efficient use
- Continue to serve street users above and trail users below
- Reduce construction impacts on nearby properties as much as possible
- Preserve the historic nature of the bridge
- Improve the visual appeal of the area

Project Schedule

2023-2024	2024-2025	2026	2026
Planning	Design	Construction	Completion
