

*“Within 120 calendar days of the Effective Date, the City will identify and repair or replace any non-functioning or malfunctioning in-car cameras. Thereafter, MPD will require that when officers are assigned to MPD vehicles that are equipped with in-car cameras, the officers will check that the cameras are fully functional at the beginning of each shift and make appropriate notifications when they are not, and the City will repair or replace any non-functioning or malfunctioning in-car cameras within 30 calendar days of an officer’s report.”*

During the July 2024 Audit, a sample of 36 vehicles and their cameras were physically inspected, which entailed six vehicles per precinct and the specialty units collectively. This audit took place on the week of July 15<sup>th</sup>, 2024. We found 32 of the 36 devices could successfully power on and were operational. Four cameras were inaccessible; three were at the dealership and one was a take-home vehicle where the officer was going on maternity leave.

While the ticketing system for tracking deficient cameras was recently implemented, the dashboard feature is still in the works. In this past period, four vehicles with an MVR required repairs and were repaired within one day.
