

In-Car Camera Review Results
Implementation Unit
March 2025

“Within 120 calendar days of the Effective Date, the City will identify and repair or replace any non-functioning or malfunctioning in-car cameras. Thereafter, MPD will require that when officers are assigned to MPD vehicles that are equipped with in-car cameras, the officers will check that the cameras are fully functional at the beginning of each shift and make appropriate notifications when they are not, and the City will repair or replace any non-functioning or malfunctioning in-car cameras within 30 calendar days of an officer’s report.”

During the March 2025 review, a sample of 36 vehicles' in-car camera footage was reviewed via Axon, which collectively entailed six vehicles per precinct and the specialty units. This review took place during the week of March 10th, 2025. Of the 36 vehicles sampled, 83% of Officers checked that the in-car cameras were functional. Of the in-car cameras checked, 93% of the startup files included the correct information. The information required is the Officer’s name, badge number, call sign, and the vehicle’s P number.

In-Car Camera Scorecard

March 2025

Percent of in-car camera startup checks that were completed.

Precinct	# of Vehicles Checked	Startup Check Exists	Startup File Correct Info	Overall	Legend
1	6	83%	80%	82%	95-100%
2	6	100%	100%	100%	90-94%
3	6	83%	100%	91%	80-89%
4	6	83%	100%	91%	80-89%
5	6	67%	100%	80%	≤ 79%
Specialty Units	6	83%	80%	82%	80-89%
Total	36	83%	93%	88%	80-89%

While the ticketing system for tracking deficient cameras was recently implemented, the dashboard feature is still in the works. Due to issues, two vehicle’s in-car camera systems needed to be replaced for this last period (02/13/25 – 03/14/25). All repairs were completed within one to ten days of being reported.
